## **Learning outside school hours -**

At LLV we believe that learning should not finish at the end of the school day. We don't believe in "homework for the sake of homework" but we do believe that learning should continue outside school and should be connected, engaging and meaningful. It should be about assisting students to embed, extend and consolidate deep learning. We want students to love learning and to see learning as being unhindered by location or time.

Teachers will provide students with ideas, suggestions and resources for out of school learning.

As a parent, carer or grandparent, you are a critical learning resource for your child. We encourage you to support your child to explore learning opportunities outside school hours.
