

LLV FUTURES - APRIL '20

Matt Dolan - matt.dolan@det.nsw.edu.au

In this issue:

- Free upskilling
- Important Information - Work Experience
- NS5 Career Expo
- Exciting Opportunity
- Future Opportunities
- Virtual Career Expo

Important Information - Work Experience

Work Experience is a compulsory part of the *Futures Education* program at LLV. This program happens in Term 3 from the 21st-25th September,

Required documents, including the *Parents Guide to Workplace Engagement* is available through www.llvcareers.com.au

Matt is closely monitoring the ongoing COVID-19 situation and will assess it's impact on Work Experience - the current thinking is it will continue as planned.

NS5 Career Expo

LLV Year 10/11 students have been invited to the NS5 Career Expo. Details below.

Continuing to upskill - parents and students

First, I hope that you, your family and friends are staying safe and healthy during this time - it has definitely been a time of unprecedented challenged and change.

There are many opportunities for both parent and students to upskill during this time. Note: The opportunities below for students are not a supplement for the work they need to be completing for school.

TAFE NSW - Fee Free for Parents

TAFE NSW are offering Fee-Free short courses with subsidy from Smart and Skilled. Courses include Statement of Attainment across Computer Skills, Administration, Practical Business Skills and Health/Medicinal Knowledge.

For more information, check out www.tafensw.edu.au/fee-free-short-courses

EdX - Collection of Free and Paid for Verified Courses

EdX provides a number of free and paid verified courses from a number of educational facilities around the world (including MIT and Harvard).

EdX has set up a number of courses for High School students that are free (if you want a certificate you can choose to purchase it - this looks good on your resume!). For more information on this, check out www.edx.org/high-school

For any more information, feel free to ask. Send me an email at matt.dolan@det.nsw.edu.au

Increasing Exposure to the Future

In the March Futures Newsletter I asked for parental experts to work collaboratively to expose our students to the world outside of school. Thank you to those parents who have responded (I am currently sorting out how this might look given the current circumstances). If you are interested in helping out, email me at matt.dolan@det.nsw.edu.au. Thank you!

NS5 CAREER EXPO
 June 30th 5.30 - 7.30pm @ Turramurra High School

Future Opportunities

As the community manages with the COVID-19 situation, a number of events, in particular those that have been organised by Universities, have been cancelled or postponed. Please visit the Calendar of Events on the LLV Futures Website (www.llvcareers.com.au) for more information.

If you have any other career information that would help out students, then please forward to matt.dolan@det.nsw.edu.au.
