LLV@home MakerSpace continues to be popular even as students return to school. This week saw students learning blanket stitch to make teddy bears and lots of yummy food being cooked at home. And look out for students wearing their snuggly, hand knitted scarves around Lindfield as the weather gets cooler!

Ella in Stage 4 took the embroidery skills from her MakerSpace project and applied them to a Mother's Day present - beautiful work!

Teresa's recipes of the week are Banana Bread and Masala Chicken. Perfect for fueling home learning on cool autumn days.
