

# LLV FUTURES - JULY '20

Matt Dolan - [matt.dolan@det.nsw.edu.au](mailto:matt.dolan@det.nsw.edu.au)

## Work Experience - Important Information

### Work Experience has been postponed

Unfortunately, due to the recent outbreaks, and potential for further disruption, the decision has been made to postpone the Work Experience program for students who are yet to organise their placement. Students who have organised work experience will need to chat with both Matt and Mark to ensure that they are still able to continue. Other students will engage in a week of work readiness, including study skills, mock interviews and resume construction.

## In this issue:

- Work Experience
- Subject Selection
- Virtual Tours
- Upcoming Events

## Virtual University Tours

A number of universities have designed virtual tour opportunities for prospective students. Students (and parents) are able to access these through

[www.llvcareers.com.au/?page=open-days](http://www.llvcareers.com.au/?page=open-days)

Registration may be required for some events.

## Subject Selection - An Important Decision

As students start thinking about what life might look like after school, one of the more important decisions is "what subjects should I do?".

Last our week our Year 10 students met individually with both myself and Sophia to discuss the subjects that they would like to study in Stage 6, and their pathways as they move through to future study.

Resources were sent out last term help students as they continue to think about what pattern of study they would like to pursue to help them achieve their goals. Pay particular attention to the University Admission Centre (UAC) Year 10 Guide for 2023 enrolments for any potential prerequisite requirements for university courses.

As we know, students plans and ideas continue to change as they increase their exposure to different jobs and individuals throughout their life. Please contact me if you would like to discuss these changes, and I would be happy to chat through the different options available to help you achieve your goals.

No matter where you go, what you study or how long it takes you to achieve your goal, one thing that we do know is that the **enterprise skills** (communication, creativity etc) is going to be needed - how can you continue to develop these to help, regardless of where you go?

## Upcoming Events
